

FRAME SCREW DRILL DLT5 14/5 MM

AREA OF USE

The ESSVE Programa Frame screw drill DLT-14/5 is designed for pre-drilling in wooden window and door frames in conjunction with the use of ESSVE Frame screws or ESSVE Indu-Prog Frame Sleeves.

INSTALLATION INSTRUCTIONS

Easily and accurately drill in wood with the Frame screw drill DLT-14/5. Perfect for mounting ESSVE Frame screws or ESSVE Indu-Prog Frame Sleeves. With a 14 mm hole in the frame and a 5 mm hole in the wall stud, it facilitates screw insertion and ensures straight installation.
